This document walks through every screen built for Week 2, the shared design system behind them, and the navigation flow that connects them — alongside the specific UI/UX corrections and upgrades applied during review.

Design System

Every screen pulls from one shared token set (app_theme.dart) so color, type, spacing, and radius stay consistent app-wide instead of being redefined per screen.

Color Palette

 Primary #FF8C42	 Primary Dark #E46A00	 Primary Light #FFB366	 Know More (CTA) #4456E8
 Text Primary #1F2937	 Text Secondary #6B7280	 Bottom Wave #FFE5D0	 Divider #E5E7EB

Typography — Poppins

HEADLINE	Create your account	24px / 700
TITLE LARGE	Continue Learning	20px / 600
TITLE MEDIUM	Mobile App Development	16px / 600
BODY	Join Excelerate and start your learning journey.	14px / 400
LABEL	PASSWORD STRENGTH: MEDIUM	12px / 500

Spacing Scale (px)

4 XS	8 SM	12 MD	16 BASE	20 LG
---------	---------	----------	------------	----------

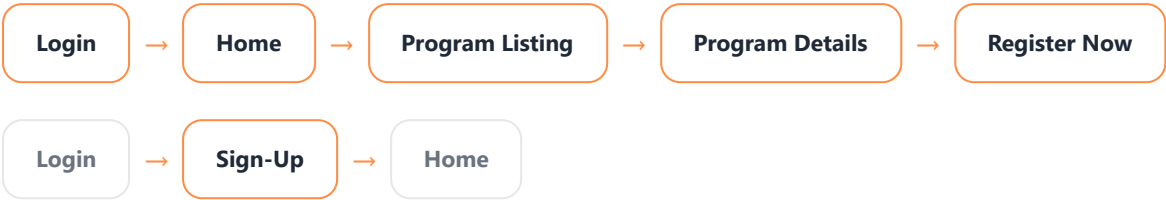

Corner Radius (px)

12 BUTTON	12 TEXT FIELD	16 CARD	20 HERO / SHEET
--------------	------------------	------------	--------------------

STRUCTURE

Navigation Flow & Screen Ownership

A persistent bottom navigation bar (Home · Explore · Learning · Profile) keeps every screen reachable once a learner signs in — there are no dead ends in the flow.

Who Built What

SCREEN	BUILT BY	KRRISH'S CONTRIBUTION
Login & Sign-Up	Bhavyasree	Fixed the bottom-wave keyboard overlap & permanent-pin bug
Home	Hari	New nav bar, AI chat button, greeting text, bookmark spacing fix
Program Listing	Suraj	Fixed deprecated APIs, wired Explore-tab navigation, Know More color
Program Details	Victor	Fixed brand-color mismatch, added collapsed-state title
Full UI/UX overhaul, routing & every bug fix above	Krrish Trivedi — Team Lead	

Login

- Full-bleed decorative peach wave (#FFE5D0) pinned to the physical screen bottom
- Excelerate wordmark logo, "Excelerate Connect" title, "Learn • Grow • Excel" tagline
- Email + Password fields with icon prefixes and a password visibility toggle
- "Forgot Password?" link, right-aligned above the primary CTA
- Full-width primary "Login" button in brand orange
- "OR" divider followed by outlined Google / Apple continue buttons
- "Don't have an account? Create Account →" link routes to Sign-Up

KRRISH'S FIX

The bottom wave would ride up above the keyboard when a field was focused, and long-scrolled content could slide behind it. Fixed by disabling `resizeToAvoidBottomInset`, reserving the wave's exact height above the scroll viewport, and finally anchoring the wave in the Scaffold's `bottomNavigationBar` slot so it is physically pinned and can never move or be scrolled behind.

The mockup shows a mobile app interface for 'Excelerate Connect'. At the top, the status bar displays '12:53' and various icons. The app header features the 'Excelerate' logo (a stylized 'E' made of horizontal lines) and the text 'Excelerate Connect' with the tagline 'Learn • Grow • Excel'. Below this, a 'Welcome Back' message is accompanied by a yellow hand icon and the text 'Sign in to continue your learning journey.' The login section contains two input fields: 'Email Address' with an envelope icon and 'Password' with a lock icon and a visibility toggle (an eye icon). A 'Forgot Password?' link is positioned to the right of the password field. A large orange 'Login' button is centered below the inputs. A horizontal line with the word 'OR' in the center separates the login section from the social login section. This section includes two outlined buttons: 'Continue with Google' with the Google 'G' logo and 'Continue with Apple' with the Apple logo. At the bottom of the login section, a link reads 'Don't have an account? Create Account →'. The entire screen is framed by a peach-colored wave at the bottom.

Sign-Up

- "Create your account" headline with supporting subtext
- Google / Apple continue buttons above an "OR" divider
- First Name, Last Name, Email, Phone Number fields
- Country / Nationality picker opening a bottom sheet list
- Password field with a live 5-segment strength meter, plus Confirm Password
- Terms of Use & Privacy Policy checkbox row with inline links
- "Create Account" primary CTA and an outlined "Cancel" action
- "Already have an account? Sign In" link back to Login

KRRISH'S FIX

Same wave-pinning defect as Login, plus the "Create Account / Cancel / Sign In" cluster was getting visually covered by the wave at mid-scroll positions. Resolved by moving the wave into the Scaffold's `bottomNavigationBar` slot (a hard, unscrollable floor) and keeping `extendBody` off so the form body stops exactly where the wave begins.

Home

- Top header bar: wordmark, notification bell with badge count, profile avatar
- Hero banner — "Let's Explore. Engage. Express. Earn." with a feature-icon row and phone mockup illustration
- Personalized greeting: "Hello, Team 7! Keep learning, keep growing."
- Search bar with a filter icon
- "Continue Learning" resumable course card — progress bar, lesson count, Resume CTA, bookmark
- "Announcements" promo card with Apply Now / Know More actions
- "Explore Programs" filter chips and a "Featured Programs" horizontal card list
- Custom frosted-glass bottom navigation bar with an elevated center button, plus a floating AI chat assistant button

KRRISH'S UI/UX ADDITIONS

Rebuilt the bottom nav bar from scratch — frosted BackdropFilter blur, a smooth arched top edge, an elevated center button, and animated icon transitions. Added the floating AI chat button with an ambient orange glow. Fixed the keyboard pushing the nav bar above itself, removed a stray gap beneath the bar, changed the greeting to "Team 7", and fixed the Continue Learning card's bookmark icon crowding the program title.

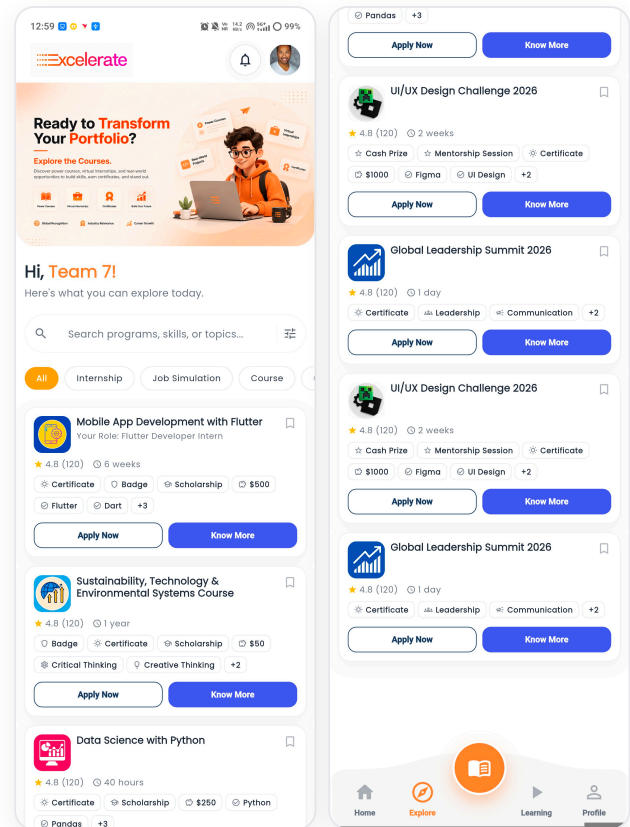

Full screen shown as top & bottom halves

Program Listing

- Hero banner — "Ready to Transform Your Portfolio? Explore the Courses."
- "Hi, Team 7!" greeting with a search bar below
- Filter chips: All / Internship / Job Simulation / Course
- Program cards showing icon, title, role subtitle, rating, duration, and feature chips (Certificate / Badge / Scholarship / Fee)
- Skill tags per program (e.g. Flutter, Dart, Python)
- Bookmark icon per card
- Dual actions per card: outlined "Apply Now" and filled "Know More" (brand blue)

KRRISH'S FIX

Resolved deprecated Flutter API usage (`withValues`) and context-related errors, wired the Home screen's Explore tab to this screen via `Navigator.pushNamed` (it was previously unreachable), and changed the "Know More" button fill from navy to the brand blue #4456E8 to match the approved reference design.

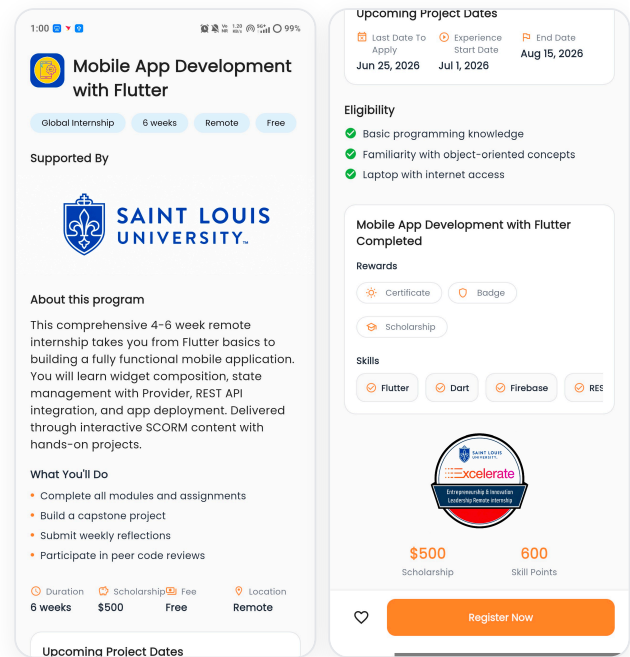

Full screen shown as top & bottom halves

Program Details

- Program icon, title, and meta chips (Global Internship / Duration / Remote / Fee)
- "Supported By" partner logo (Saint Louis University)
- "About this program" description and a "What You'll Do" checklist
- Duration / Scholarship / Fee / Location stat row
- "Upcoming Project Dates" card — apply-by, start, and end dates
- "Eligibility" checklist
- Completion rewards card — Certificate / Badge / Scholarship chips and skill tags
- Program badge seal, scholarship amount, and skill-points stat row
- Sticky bottom bar: wishlist icon + "Register Now" CTA

KRRISH'S FIX

The screen shipped with hardcoded spec-blue (#1976D2) instead of inheriting the app's actual orange brand color, which would have clashed once merged next to every other screen. Repointed all colors to AppColors, and added the missing collapsed-state app-bar title so the program name stays visible once the header collapses on scroll.
